### Level 3 Human Resource Practice (CIPD)

I'm currently studying for a Level 3 Certificate in Human Resource Practice (CIPD). I chose Tameside College because I'd heard from work colleagues that the teaching was excellent, and I was looking for an experience that I wouldn't be able to get anywhere else!

My favourite unit was definitely Recording, Analysing and Using HR Information. I already had an interest in data and statistics, so being able to further this interest and combine both data and HR was something I was looking forward to.

I love the support I've been offered by both my tutor and the college, and I definitely wouldn't have come this far without that support. I can confidently say that I wouldn't have received this level of support from another institution

After the course ends, I'm intending to pursue a career in People Analytics and find a position where I can continue to display my proficiency in data.

### Level 5 Human Resource Management (CIPD)

I chose Tameside College as I wanted a course that ran in the evening, fitting around my work commitments. I also learn better with face-face teaching.

The teacher on the course was one of the best teachers I have ever had. She kept learning fun and enjoyable, as well as being really engaging and supportive of all the learners on the programme.

One highlight for me was meeting other people on programme who work in the same field as I do.

I have since been promoted in my role and use the knowledge gained from my Level 5 course during my day to day work.

## Level 5 Human Resource Management (CIPD)

I chose Tameside College because they had a flexible part-time course that worked well around my full time job.

My favourite unit during the course was 5ENG - Employee Engagement. The module enabled me to learn more of a strategic overview of employee engagement and the importance within a company/business. I came out of the module with a better understanding of the different types of employee engagement and what to strive for as best practice within my own industry and company.

My course tutor was great; she ensured our lessons were engaging, which is really important when you have had a long day at work. She ensured we had all the resources we needed to complete the assignments and was always on hand to support. Even when our lessons resumed online due to pandemic, I feel that I had the same level of learning and support as I would have had in face to face lessons.

The course has allowed me to understand a more strategic and top line level purpose for Human Resources within a business.

Overall I had a great experience with Tameside College.

I am now working as a Central Human Resources Officer.
