Fiona Waters	Level 5 Certificate Human Resource Management (CIPD)
Jana Weekes	PrGCE (in partnership with University of Huddersfield)
Nicola Wild	Foundation Degree in Early Years (in partnership with University of Chester)
Kyle Wood	HND in Computing and Systems Development
Angela Woodward	Foundation Degree in Teaching Assistance (in partnership with University of Chester)

Congratulations to the Class of 2020

HE VIRTUAL GRADUATION

Laura Wallace

Level 5 Certificate in Human Resource Management (CIPD)

"My reasons for choosing to study the CIPD at Tameside College were the quality of teaching, convenient course times and good value for money.

My teacher was excellent. She is a subject matter expert and genuinely wanted all of her students to succeed. She offered high levels of support and good quality, constructive feedback. She managed the classes well, both in person and online when we had to switch to remote learning due to the pandemic.

The highlight for me has been the ability to develop my knowledge of HR. I feel the course helped me to become more effective in my role

I have since been promoted to a new role within my organisation."

HE VIRTUAL GRADUATION 2020

Francesca Murphy

Foundation Degree in Early Years"

"Having previously completed my Level 3 in Supporting Teaching and Learning at Tameside College, I thought it would be the ideal place to continue my learning journey due to familiar faces and environment. The support I have received has been amazing.

The teachers at Tameside College have been amazing. They are always there to support you in any way they can.

I've met so many amazing people and friends whilst working through my Degree - we've all worked together to help and support each other.

I'm now using my Degree to apply for a better position at work."

HE VIRTUAL GRADUATION 2020

Anthony Dawson

HND in Mechanical Engineering

"I chose to study at Tameside College because of its reputation, location, facilities, links to my employer Siemens and previous study experience.

The staff were professional, knowledgeable and very helpful over the 3 year duration of study. They are a credit to the engineering department.

The main study highlight for me was a field trip to a HSE Laboratory near Buxton. This was extremely useful and interesting! I also enjoyed Thermo Dynamics, Mechanical Principles, Structural Analysis and Research Project - these were all related directly my work.

I am currently working for Siemens Energy, as a Lead Design Engineer (HV Plant) for Offshore Wind-farms."

HE VIRTUAL GRADUATION 2020

Amy Sheldon

Postgraduate Certificate in Education (Huddersfield University)

"Tameside College offered a part time 2 year course which fit perfectly around working full time. It is a local college and has a good reputation.

The staff on the PGCE are extremely supportive and helpful.

It was really hard finishing the course in the middle of a pandemic, however my highlight was successfully completing the course. I also really enjoyed my placement, teaching media.

I am now teaching full time where I carried out my placement."

HE VIRTUAL GRADUATION

Daniel Edwards

HND in Sport and Exercise Science

"The reason I chose to study at Tameside College was due to the amount of different courses available within the subject I wanted to study. Starting from my first year, I was able to train and play football whilst learning.

During my time at Tameside College, the staff have been extremely helpful right from the very start. The work which they deliver in classes is done professionally, explaining each unit in detail to make sure we understand what needs to be done. Each member of staff will give their time to help you have a better understanding of the work and also listen to any questions which you may have.

My highlight is being able to have a different view on the course I have been studying, as it has shown me a wide variety of new areas which has made me want to explore and want to learn more about.

Meeting new people of mixed abilities has allowed me to develop myself with both confidence and leadership skills within group activities."

HE VIRTUAL GRADUATION 2020

Nicola Wild

Foundation Degree in Early Years

"I originally came to sign up for a different course, but I wanted so much to study for a degree and was advised of this pathway.

The staff have been very helpful and are always ready to listen. I thought my teachers were amazing.

The highlight for me was going back to studying and meeting new people. I was the oldest in the class but that didn't seem to matter! I am 54 years old and hoping to continue in education if possible!

I have taken a year out from studying but I will be enrolling on the BA (Top Up) degree course next year with Tameside College to complete my degree."

HE VIRTUAL GRADUATION 2020

Zakaria Khan

HND in Business Management

"I chose to study the HND in Business Management at Tameside College as I had heard positive things about the teachers and facilities.

Tameside One was totally accessible, making it easy for me to get to class and it is next to all local amenities.

I learned so much on the course, including business environments, marketing and I now have a deeper understanding about global business. The staff were super friendly and were always on hand to help.

Thanks to the HND, I have now progressed onto a BA (Hons) in Business Management."
